Geomorphology typology
- Intermediate lagoon 15–30 m
- Shallow lagoon 5–15 m
- Deep lagoon
- Pass
- Outer slope
- Inner slope
- Emerged reef flat
- Subtidal reef flat
- Drowned subtidal reef flat
- Deep subtidal reef flat
- Subtidal reef flat / Transverse alignments

Criteria	A'	B'
$\#Mis.\,Typ.$	0	0
$B.\,Accuracy$	0.75	0.69
$Match$	0.93	0.89
$B.\,Match$	0.77	0.69

Figure 8: **A** Predicted map with a 50 m DBM and 1000 sampled locations using CDS methodology. **B** Predicted map with a 100 m DBM and 200 sampled locations using CDS methodology. Corresponding match / mismatch maps (A' and B') in comparison to the expert one. **C** Performance criteria measured.
